Your Drinking Water

NKWD Provides Critical Services during COVID-19 Pandemic

Erlanger, KY – During these challenging times, the Northern Kentucky Water District would like those we serve in Kenton, Campbell, parts of Boone counties and its wholesale customers in parts of Boone, Grant, and Pendleton counties to feel confident that the delivery of reliable, safe and clean water remains our mission.

The District is very proud and confident in its water professionals. These dedicated employees, 24/7, show-up, remain passionate for and are strongly committed to protecting public health by providing safe and clean water. Just like medical personnel, first responders and other critical careers, the District's staff is on the front lines of public safety, providing clean and safe water 24 hours a day, 7 days a week.

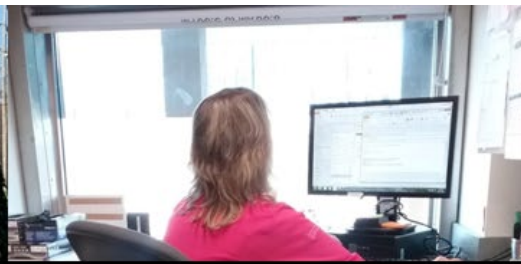

During these days of uncertainty in fighting COVID-19, Ron Lovan, President/CEO stated that, "The District employees are amazing. Without hesitation, without prompting, these professionals planned and began volunteering to modify the way they work to continue to ensure the uninterrupted delivery of clean and safe water to our customers. They are unsung heroes providing a life-sustaining, out-of-sight, out-of-mind service. So, take comfort in your water, wash-up and drink-up."
