

During the week of March 16th thru 20th, the District's Drive-Thru hours were extended in an effort to offer additional flexibility to our customers since the lobby was unavailable effective March 13th.

There was little to no customer demand for in-person services during that time period, therefore effective March 23rd extended hours will no longer be offered.

In addition, limiting our drive-thru hours to regular business hours further decreases exposure to our customers and staff. Please direct any questions or concerns to the call center at (859) 578-9898.
